(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Declares an intent to provide the faculty and other employees of the state universities, regional universities, The Evergreen State College, and the community and technical colleges, membership in the higher education retirement plans, that are defined contribution plans characterized by guaranteed retirement contributions by the employer and fixed contributions by the employee. Because the retirement benefit in a defined contribution plan is based on the accumulations in and the performance of the investment funds to which the employers and employees contribute, it is the intent neither to guarantee nor limit this benefit.

Creating a plan to improve preparedness in response to a bioterrorist event.

(DIGEST OF PROPOSED 2ND SUBSTITUTE)

Finds there is a need to focus on the prevention, detection, management, and containment of public health emergencies from infectious diseases.

Finds that an effective communications system is needed to ensure that health care providers across the state can quickly and efficiently notify and communicate with each other regarding signs and symptoms they may observe that may be the earliest indications of bioterrorism and terrorist related public health emergencies.

Finds that there is a need to coordinate planning among government agencies to ensure an effective response to bioterrorism incidents or other terrorist attacks.

Recognizes that the department of health and human services has recently awarded funding to the department of health to develop a comprehensive bioterrorism plan and to improve and expand disease surveillance and investigation, communication, public health laboratory capacity, and hospital system readiness.

Designates the department as the coordinator of the state bioterrorism preparedness and response program. By July 2, 2002, the department shall prepare a plan for improving current preparedness and response for a bioterrorist event or other public health emergency.

Requires the department to submit the state plan to the federal department of health and human services by March 15, 2002, and no later than April 15, 2002. If the deadline for plan submission is extended, the department shall submit the state plan no later than the subsequent deadline established by the federal department of health and human services.

HB 2867-S2 by House Committee on Agriculture & Ecology (originally sponsored by Representatives Fromhold, Ogden, McMorris, Grant, Haigh and Delvin)

Mitigating the effects of the aquatic pesticide national pollutant discharge elimination system permit required as the result of a recent court decision.

(DIGEST OF PROPOSED 2ND SUBSTITUTE)

Finds that the recent federal court of appeals decision in *Headwaters, Inc. v. Talent Irrigation District*, 243 F.3rd 526 (9th Cir. 2001) imposes a duty to obtain a national pollutant discharge elimination system permit under the clean water act for the application of pesticides to irrigation canals. This duty is also extended to other individuals and organizations that apply pesticides to other waters, where no duty existed before the *Talent* decision.

Finds that the costs associated with the issuance of the national pollutant discharge elimination system permit now required by the department of ecology as a result of the federal decision is unfairly burdensome to the affected individuals and organizations.

Declares an intent to reduce the burden of the federal decision on those individuals and organizations.

Declares that the fee for a general permit or an individual permit required solely as a result of the federal court of appeals decision in *Headwaters, Inc. v. Talent Irrigation District*, 243 F.3rd 526 (9th Cir. 2001) is limited to a maximum of three hundred dollars.

Declares that such a permit is required only if, and as long as, the United States environmental protection agency requires such a permit as a result of the court's decision in states that have not been delegated permit authority under the federal clean water act (33 U.S.C. Sec. 1251 et seq.).

Issuing transportation bonds.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that the needs of the state transportation system have grown beyond the capacity of traditional state and local tax and fee revenues. It is necessary and desirable to expedite selected local and regional transportation facilities by using direct user fee support in the form of tolls or other charges.

Declares an intent to establish a reimbursable bonding mechanism that allows for secure and cost-effective public toll financing of transportation facilities that preserves and protects the fuel tax bonding capacity. Therefore, this act provides for reimbursable bond financing based on tolls for the development, construction, and operation of the Tacoma Narrows bridge public-private initiative project.

Declares an intent that reimbursable toll facility bonds will enjoy the support of the full faith and credit of the state. Tolls will be charged in amounts sufficient to repay the state treasury for all financing costs, operations of the facility, and other costs incidental to the project.

For purposes of this section, "green vehicles" means: (1) Public transportation vehicles;

(2) Private motor vehicles carrying no fewer than a specified number of passengers;

(3) Private motor vehicles whose average gasoline mileage is at least twice the national average for passenger cars, as that figure is determined by the United States Environmental Protection Agency; and

(4) Private motor vehicles that are permanently mitigating the greenhouse gas emissions emitted by paying a mitigation fee under this act.

Directs the department of licensing to set a mitigation fee, or a schedule of fees based on the age or relative emissions of a vehicle, for green vehicles under this act of no more than three thousand six hundred dollars annually.

Provides that one-half of this fee must be transferred to the Washington State University energy program for the study of the climate and rural energy development, which shall use this fee for air pollution mitigation within the boundaries of the air pollution control authorities for the counties in which a green vehicle paying a mitigation fee is used.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Declares that, in order to provide safe and efficient travel on public streets, it is necessary for street utilities to impose appropriate street use charges on street users, identified by classifications such as residences and businesses, based upon the type of uses made of each property and the estimated impact that uses have on public streets, subject to the limitations in this act, all of which is necessary to protect the public's welfare.

Provides that a city or town may elect by action of its legislative authority to own, maintain, operate, and preserve all or any described portion of its streets as a separate enterprise and facility, known as a street utility, and from time to time add other existing or new streets to that street utility, with full power to own, maintain, operate, and preserve these streets.

Authorizes the legislative authority of the city or town to include as a part of the street utility street lighting, traffic control devices, sidewalks, curbs, gutters, parking facilities, and drainage facilities, and any other facilities, equipment, or service directly related to public streets as may be prescribed by ordinance. The legislative authority of the city or town is the governing body of the street utility.

SB 6790-S by Senate Committee on Ways & Means
(originally sponsored by Senators Spanel
and Gardner)

Increasing personal use shellfish license fees.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that testing and monitoring of beaches used for recreational shellfishing is essential to ensure the health of recreational shellfishers.

Finds that it is essential to have a stable and reliable source of funding for such biotoxin testing and monitoring.

Finds that the cost of the resident and nonresident personal use shellfish and seaweed licenses is undervalued and not properly aligned with neighboring states and provinces.

Provides that, in addition to the fees authorized in chapter 77.32 RCW, the department shall include a surcharge to fund biotoxin testing and monitoring by the department of health of beaches used for recreational shellfishing. A surcharge of two dollars applies to the following licenses: (1) Resident and nonresident shellfish and seaweed licenses as authorized by RCW 77.32.520(2)(a); and (2) resident and nonresident adult combination licenses as authorized by RCW 77.32.470(2)(a). Amounts collected from this surcharge must be deposited in the general fund--local account managed by the department of health.

Requires the fee increase proposed in this act to be implemented in the department of fish and wildlife's license fee structure for the license year beginning April 1, 2002.
